PREFACE

This is the ninth annual edition of the Data Digest on Iowa Postsecondary Institutions.

Most of the information in this publication is drawn from the Higher Education General Information Survey (HEGIS), a nationwide study of postsecondary institutions carried out each year by the National Center for Education Statistics, U.S. Department of Education. The Iowa College Aid Commission coordinates the collection of the HEGIS data from Iowa colleges and universities.

Some of the statistical data in the Digest is obtained from sources other than HEGIS. Enrollment information is provided through an annual survey conducted by Dr. W. A. Cox of the University of Iowa for the Iowa Coordinating Council for Post High School Education and through the Area School Division of the Department of Public Instruction. Data on student fees and financial aid are compiled by the Iowa College Aid Commission staff.

The Iowa College Aid Commission is indebted to the members of the Data Collection Committee appointed by the Iowa Coordinating Council, the Iowa financial aid officers who worked with Commission staff to provide data on student aid resources, and to the many Iowa college and university staff members who provided the information in the Data Digest.

The Data Digest is distributed to the executive offices and libraries at all postsecondary institutions in the state, to the Governor and State Comptroller, to agencies concerned with education, to State Legislators and Iowa Congressional delegates. Copies are available to the general public for a fee of $10.

For clarification or explanation of data presented in this publication, the Commission suggests that the reader consult with the appropriate administrative personnel at the individual institutions. Any comments or suggestions for improvement in the content or format of this report will be gratefully received by the Commission.

IOWA ENROLLMENTS - FALL 1983

The information in this section was compiled from the Iowa College and University Enrollment Report prepared annually by W. A. Cox of the University of Iowa for the Iowa Coordinating Council for Post High School Education and from the Department of Public Instruction, Area School Division.

The first table shows the enrollment trends in the major sectors of postsecondary education between 1975 and 1983. In following tables, 1983 enrollments are summarized by residency, sex, full-time or part-time, and graduate or undergraduate status within each major sector and each institution. Data is confined to students enrolled in credit-bearing programs.

Since full data was not available for the independent trade and technical schools, enrollments for these schools have not been included.

STUDENT EXPENSES

The college budgets in this section are collected by the ICAC and include tuitions and mandatory fees (fees paid on an annual basis by all students), room and board in campus dormitories, plus a standard allowance for books and other education-related costs adopted by the ICAC for purposes of the state scholarship and grant programs. This standard allowance has increased from $650 in 1977-78 to $1,200 for 1984-85. Since the individual schools vary in their estimates of cost for non-fixed items (books, transportation, etc.), the total budgets reported may vary from those given in the college catalogs.

Most of the area schools do not have dormitory facilities and living expenses can vary considerably depending upon location and commuting distance. Therefore, this report does not attempt to estimate total budgets for area school students, but reports only the actual tuitions and mandatory fees provided by the Area School Division of the Department of Public Instruction.

The first table in this section shows the trend in average expenses by major Iowa sector between 1977-78 and 1984-85 and compares them to national averages. The following tables display the increases in college costs by institition over the same period of years.

All expenses in this report are calculated on the basis of the academic year (September to June).

DEGREES AND OTHER FORMAL AWARDS CONFERRED - 1982-83

The source of this report is HEGIS Form 2300-2.1, which collects data annually on degrees and other formal awards conferred during the previous academic year. The first table summarizes the degrees conferred by each sector of Iowa postsecondary institutions. The second group of tables shows the number of degrees conferred at each institution by level of degree and sex of recipients. The third group of tables gives the awards at each institution by level of award, major field of study and sex of recipient.

FACULTY SALARIES AND TENURE

The data in this section was derived from HEGIS Form 2300-3 for those Iowa institutions which completed this form. In the first table, increases in average salaries since 1975 are shown by professional level and by sex within each institutional sector. The second table compares 1983 average salaries with national averages as reported by the National Center for Education Statistics. The following tables show the data by individual institution, giving the number of instructional staff employed full-time at each professional level and the number with tenure status.

FINANCIAL STATISTICS

This section was compiled from figures reported on the HEGIS Form 2300-4 (Financial Statistics of Institutions of Higher Education). Pages 97 and 98 summarize the revenues and expenditures by each major section of postsecondary institutions for Fiscal Year 1982-83. The following tables show revenues and expenditures in Fiscal Year 1983 for each institution.

Gross and net assets in physical plant and book value of endowment funds are shown beginning on page 153. These holdings are presented in total by type of institution, as well as by individual school.

A glossary of terms, as defined in the instructions for completing this HEGIS report, is given below:

REVENUES

Tuition and Fees - Amounts assessed against students for current operation purposes.

Government Appropriations - Amounts received from or made available to the institution through acts of a legsilative body, except grants or contracts.

Governmental Grants and Contracts - Revenues from governmental agencies which are for specific research projects or other types of programs.

Private Gifts, Grants and Contracts - Revenues from private donors for which no legal consideration is involved.

Endowment Income - 1) Unrestricted income of endowment and similar funds; 2) income of endowment and similar funds restricted as to the amount expended for current operating purposes; and 3) income from funds held in trust by others under irrevocable trusts.

Sales and Services of Educational Activities - Revenues derived from the sale of goods or services that are incidental to the conduct of instruction, research, or public service.

Sales and Services of Auxiliary Enterprises - Revenues derived from self-supporting activities, e.g., residence halls, food services, student health services, college unions, intercollegiate athletics, etc.

Other Sources - Revenues not covered elsewhere, e.g. 1) interest income and gains from investments of unrestricted current funds; 2) sales and services of internal service departments to persons or agencies external to the institution.

Independent Operations - Revenues associated with operations independent of or unrelated to the primary missions of the institution (i.e., instruction, research, public sevice). This category generally includes only those revenues associated with major Federally funded research and development centers.

EXPENDITURES

Instruction - This category includes the following; general academic; occupational and vocational instruction; special session instruction; community education; preparatory and adult basic education; and remedial and tutorial instruction.

Research - This category includes all funds used for activities specifically organized to produce research outcomes and commissioned by an agency either external to the institution or separately budgeted by an organizational unit within the institution.

Public Service - Funds budgeted specifically for public service and expended for activities established to provide noninstructional services beneficial to groups external to the institution, e.g. 1) seminars and projects to particular sectors of the community; 2) community services and cooperative extension services.

Academic Support - Expenditures for libraries, museums, galleries, audio-visual services, computing support, ancillary support, academic administration and personnel development, and curriculum development.

Student Services - Funds whose primary purpose is to contribute to students' emotional and physical well-being and to their intellectual, cultural, and social development outside the context of formal instruction; e.g. career guidance, counseling, financial aid administration and student health services (except when such health services are operated as an auxiliary enterprise).

Institutional Support - This includes day-to-day operational support of the institution (excluding physical plant operations), general administrative services, executive direction and planning, legal and fiscal operations and community relations.

Operation and Maintenance of Plant - This includes funds for operations established to provide service and maintenance related to campus grounds and facilities.

Scholarships and Fellowships - This category applies only to monies given in the form of outright grants and trainee stipends to individuals enrolled in formal coursework, either for credit or not. It also includes aid to students in the form of tuition or fee remissions except those granted because of faculty or staff status.

Educational and General Mandatory Transfers - Mandatory transfers are those that must be made in order to fulfill a binding legal obligation of the institution including debt-service provisions relating to academic buildings, e.g. 1) amounts set aside for debt retirement and interest, 2) required provisions for renewal and replacements to the extent not financed from other sources.

Mandatory Transfers for Auxiliary Enterprises - The amount transferred from current funds for mandatory debt service provisions relating to auxiliary enterprises e.g. maintenance reserves.

Auxiliary Enterprises - This category includes those essentially self-supporting operations which exist to furnish a service to students, faculty, or staff and which charge a fee that is directly related to the cost of the service, e.g. residence halls, food services, college stores and intercollegiate athletics.

Mandatory Transfers for Hospitals - Transfers for mandatory debt service provisions relating to hospitals.

Hospitals - This category includes all expenditures, except depreciation, associated with the operation of the hospital, including nursing expenses, other professional services, general services, administrative services, fiscal services and charges for physical plant operations.

Mandatory Transfers for Independent Operations - The amount transferred from current funds for mandatory debt provisions relating to independent operations.

Independent Operations - Funds expended for operations that are independent of our unrelated to the primary missions of the institution. This category is generally limited to expenditures of a major Federally-Funded research and development center.

STUDENT FINANCIAL AID

The first two tables in this section summarize the financial aid that Iowa students received in 1983-84 from the major federal and state programs of student assistance. The following tables offer a more comprehensive report on the student aid distributed in 1982-83. This data is based on a survey which the ICAC conducted in the fall of 1983. Sixty-four schools completed the survey instrument, and the results are reported in this section of the Data Digest.

The financial aid directors at the participating postsecondary schools reported that their undergraduate and graduate students received a total of nearly $272 million in all types of assistance in 1982-83. This figure does not include Social Security and Veterans Educational Benefits, however, as the schools were unable to provide accurate information on these sources. For the same reason, many scholarships awarded by community service organizations and private businesses have not been included.

As shown on page 165, 25% of the student aid dollars come from federal programs, 33% from state funding, 26% from college and university funds and 16% from special endowments or other sources. Forty-six percent of the financial aid was in the form of loans, 38% in scholarships and grants, and 16% in pay for work performed.

Students at the Regents institutions received 46% of the total aid, students at independent colleges and universities received 43% and area school students received 11%.
